Insurer Program Disclosure

It is understood and agreed that prior to coverage being provided, the Applicant, as a precedent to coverage being offered, agrees to and understands the following:

- A. Claims expense and defense costs are included within the combined single Limit of liability and annual aggregate on the Policy. However, a separate claims expense and defense cost benefit has been added to the primary combined single Limit of liability, as a separate coverage providing benefits up to 25% of the Limit of liability provided under the Policy issued;
- B. The program requires that certain 1992 and some 1998 EPA standards must be met by all Tanks and connecting Piping prior to coverage being provided. The Insurer may permit these standards to be complied with by offering up to 180 days, after the effective date of coverage, for the Insured to meet the minimum standards established under the program;
- C. The fee for inspections, claims, engineering and audits, include a one-time charge by the Insurer to perform a 30-day product inventory and audit review. This inventory and audit review will be performed by the Insurer's designated auditing firm, prior to coverage being effected. The Insurer also has a one-time site inspection charge included as part of each Insured's coverage.
- D. Damage and repair to Tanks, connecting Pipe, pumps, and other business and personal property of the Insured are specifically excluded under the Policy ;
- E. The coverage provided will specifically insure each location/site separately. Each Tank and its Piping at each site will be specifically identified and coverage provided only for those Tanks listed in the coverage contract. No coverage will be in effect for sites or specific Tanks on any site that is not specifically listed. If a charge has not been made for a specific Tank and its Piping, then no coverage is in effect. Only Tanks and Tank Piping found in compliance as of the effective date of coverage will be provided coverage under the Policy issued;
- F. All and any existing or previous pollution or contamination on the site or location is specifically excluded. The Insurer may void coverage within 15 months of the effective date of coverage, due to pre-existing conditions on the site location.
- G. The Insurer makes no assertion, evaluation, determination, or otherwise assumes any responsibility that the liability insurance purchased under Program II will be adequate to comply with Federal Law. The Insurer also does not assume, or offer any guarantee, that any state-funded program will either pay benefits, or be able to pay benefits up to or in excess of any insurance provided under Program II .
- H. The Policy issued by the Insurer has a special pre-existing conditions exclusion, and a coordination of benefits provision as a condition of coverage being provided to each Insured.

NOTE: The Insurer will provide up to \$1,000,000 combined single limit and annual aggregate limit as excess over, and not in addition to, any primary coverage you select as self-insurance, or have in effect under some other program.

4. The Insurer is herein released and relieved from any and all responsibility to notify the Insured of the possible reduction in any applicable Limit of Liability.
